

SUPERIOR WASHI MASKING TAPE

Extra High Adhesion For Difficult Surfaces

ADHESION LEVEL: HIGH

SURFACE TYPE: Smooth (Glossy) to Textured

FEATURES:

EXTRA HIGH TACK

Extra High Tack Acrylic Adhesive.

TEAR RESISTANT

Strong Tear Resistant Fibre Reinforced Washi Paper.
Easy Masking tape removal without ripping or tearing.

COLD SURFACE MASKING

The extra Adhesive tack assists with Cold and Damp surface masking applications.

60+ DAYS

60+ Days Exterior use under normal UV weather conditions.

RAZOR SHARP LINES

Ultra thin washi paper for razor sharp finish lines.

HIGH VISIBILITY

Bright Orange identification colour.

DESIGNED FOR:

- Hard to stick to surfaces - textured or uneven.
- Excellent for masking applications on difficult surfaces - such as Cedar Timber.
- Surfaces that are wiped down but remain slightly damp (testing recommended).
- Interior & Exterior professional paint masking with no paint bleed.
- Compatible with most sealants & silicones.

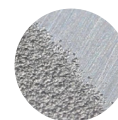

⚠ Surface testing always recommended to assess tape suitability to the surface & application. See surface application & preparation guide on: www.tapespec.co.nz

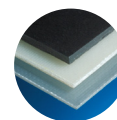

SUITABLE SURFACES:

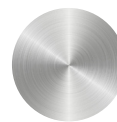

Wood

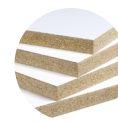

Concrete

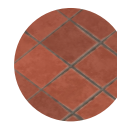

Plastics

Aluminium
& Metals

Composite
Panels

Tiles
