

# JOINING & SEALING TAPE

## High Adhesion PVC Tape

### PVC Joining and Sealing Tape

Plasticized PVC Tape coated with a specially cured rubber based adhesive.  
 An excellent general purpose tape with good resistance to weather, moisture, UV & aging

#### MULTI-PURPOSE

**Thickness: 0.13mm**

Excellent for joining & sealing:

- HVAC pipe work & ducting
- Electrical cable insulation & corrosion protection
- Joining plastic sheeting especially for concrete film underlay

#### PREMIUM

**Thickness: 0.15mm**

Excellent for heavy duty joining & sealing applications:

- Used in the Agricultural market for over the last 15 years & trusted for reliability & performance in the demanding application of Silage film wrapping.
- Excellent for sealing HVAC duct and piping work.
- Heavy duty cable & pipe corrosion protection
- Used for difficult plastic sheet joining & patching
