

SAFETY TAPE RANGE

Ensuring a Safe Work Environment

Floor Marking / Hazard Warning & Anti-slip Self-Adhesive Tape Range

Designed to be durable and tough for long life applications in various environments. Our wide range of floor marking tapes are excellent for clearly defining work, safety and hazard areas. Along with an extensive range of Anti-Slip Grip tapes designed to assist in the prevention of slips, falls and other injuries in various environments and situations. These tapes will assist companies and organisations to meet their Health & Safety objectives.

Floor Marking PVC Tape

- Made from extra tough PVC film & coated with a long life aggressive rubber adhesive
- Heavy duty film with an aggressive adhesive system with good resistance to most cleaning solutions.
- Low stretch film with good abrasion resistance - stands up well to foot and machinery traffic.

CODE	COLOURS	MARKET	WIDTH	ROLL LENGTH
0008		Industry	Slit to required size	30m

Applications:

- Factory & warehouse lane & demarcation area marking, sports court & safety marking.
- Excellent for colour coding - 6 colours
- Directional colour coding in large public buildings
- Used as a general purpose splicing & over wrapping tape.
- Tough film for sand blasting & shot blast applications.

Floor Marking Indicators

- Yellow** – Aisle ways, traffic lanes and work areas defined.
- White** – Equipment and fixtures (work stations, carts, floor stand displays, racks, etc).
- Blue, Green & Black** – Indicating materials & components, including raw materials, in progress & finished goods.
- Red** – Defects, scrap, rework and red tag areas.

Safety Tape Range

Safety Hazard Warning PVC Tape

- Made from extra tough PVC film & coated with a long life aggressive rubber adhesive.
- Heavy duty film with an aggressive adhesive system with good resistance to most cleaning solutions.
- Low stretch film with good abrasion resistance – stands up well to foot and machinery traffic.

CODE	COLOURS	WIDTH	ROLL LENGTH
0009		Slit to required size	33m
0009R		48mm	33m

Applications:

- Excellent identification of fire equipment, first aid points, assembly areas, health & safety areas.
- Extensive colour combinations for highlighting danger, health & safety & risk areas.

Colour Indicators:

Yellow / Black – Use on all areas that may expose employees to physical or health hazards. Width & height restrictions, moving equipment & obstructions.

Red / White – Firefighting equipment, no smoking areas & flammable substances.

Green / White – For safety equipment, first aid points & emergency escape routes / safe areas

PE Coated Cloth Hazard Warning Tape

- Premium Waterproof Cloth tape coated with an aggressive rubber adhesive - suitable for textured surfaces.
- The heavy duty CLOTH tape is hand tearable for ease of use
- The coloured diagonal stripes highlight danger, hazard & safety areas.

CODE	COLOURS	WIDTH	ROLL LENGTH
0011		Slit to required size	25m
0011R		48mm	25m

Applications:

- Used as heavy duty warning indicator tape for construction sites, warehouse areas, factories & schools.
- Suitable for interior & exterior use.
- Excellent for defining & highlighting potential hazards such as low headroom, obstacles like posts & racking

Safety Tape Range

Reflective Hazard Warning Tape

Highly reflective identification warning tape coated one side with high bond, long life acrylic adhesive

CODE	COLOURS	MARKET	WIDTH	ROLL LENGTH
9650		Industry	48mm	10m
9650R		Retail	48mm	10m
9651		Industry	48mm	10m
9651R		Retail	48mm	10m

Applications:

- Excellent hazard ID for warehouses, factories, construction sites & service areas.
- Effective warning indicator colours for parking areas, safety equipment & potential danger areas.

Tape Floor Application Machine

For floor tape application please use our Floor Lane Marking Machine (Dispenser 9). This tape application machine is an effective method for applying the floor marking tape where the tape is guided to ensure a straight line without bending down to apply by hand.

Anti-Slip Tapes

Heavy Duty Coarse Grip

- Made from premium silicon carbide grit applied to a durable PVC backing, designed for extra longevity indoors & outdoors.
- The long lasting high slip resistant grade.
- Coated with a high bond long life acrylic adhesive system.
- Meets AS/NZ 45862004 Slip Resistance Test Standard

CODE	COLOURS	MARKET	WIDTH	ROLL LENGTH
4600		Industry	25, 50, 100, 150mm	18m
4600R		Retail	50mm	5m
4601		Industry	25, 50, 100, 150mm	18m

Applications:

- Designed for heavy duty & harsh environments where high performance is required.
- Good resistance to cleaning solutions, oils, grease & muddy conditions.
- Used in warehouses, factories, on vehicles, hospitals, marine & home applications.
- Anti-Slip tread for on machinery & vehicle footplates.
- Anti-Slip tread on stairs & grip for ladders.
- Provides extra grip on ramps & walkways.

Safety Tape Range

Multi Purpose Medium Grip

- Made from premium silicon carbide grit applied to a durable PVC backing, designed for multi use with good longevity indoors & outdoors.
- Coated with a long life high bond acrylic adhesive system.
- Meets AS/NZ 45862004 Slip Resistance Test Standard

CODE	COLOURS	WIDTH	ROLL LENGTH
4700		25, 50, 100, 150mm	18m
4704		25, 50, 100, 150mm	18m
4702R		25, 50, 100, 150mm	18m

Applications:

- To prevent slips at home, work, school, hospitals sports areas, swimming pools, on vehicles etc.
- The vibrant yellow / black diagonal product is used for clear identification of high risk slip / safety areas.
- Anti-Slip tread for on machinery & vehicle foot-plates.
- Anti-Slip tread on stairs & grip for ladders.
- Provides extra grip on ramps & walkways.

Cushion Grip Tape

- Made from a special resultant PU foamed material designed for bare feet usage & hazard areas.
- Strong bonding acrylic adhesive for long life application.
- Designed to be conformable, non abrasive but allow for excellent grip when used with bare feet. Also the PU material is waterproof & easy to apply.

CODE	COLOURS	WIDTH	ROLL LENGTH
4500		25, 50mm	5m
4500R		25, 50mm	5m

Other width sizes are available please contact us

Applications:

- Ideal for users not wearing shoes or boots, soft on bare feet with good grip properties.
- Excellent anti slip grip tape for schools, kindergartens, marine boat applications, soft underfoot for long term standing.
- Used in various commercial & industrial applications requiring a textured safety tape.

Also available upon request:

Conformable / flexible Anti Slip grades
Transparent plastic backing grades
Luminous - glow in the dark grades
Various colours also available on request

Surface Preparation & Application Guides:

Please see at www.tapespec.co.nz

Note: if applying to bare wood or concrete surfaces please seal to ensure maximum adhesion & longevity.

If using outside ensure correct surface preparation & cleaning is carried out, also it is recommended to use a silicone beading around the edges to help secure & assist longevity.
