

SUPERIOR WASHI MASKING TAPE

Extra Initial Adhesion For Difficult Surfaces

ADHESION LEVEL: Extra High
SURFACE TYPE: Semi Smooth To Textured

Key Features

- Extra High Tack Acrylic Adhesive
- Strong Tear Resistant Fibre Reinforced Washi Paper
- 60+ Days Exterior use under normal UV weather conditions.
- Ultra thin washi paper for razor sharp finish lines
- Bright Orange identification colour

Designed For:

- Hard to stick too surfaces - textured or uneven.
- Surfaces that are wiped down but remain slightly damp (testing recommended)
- Masking surface areas that are often cold & difficult to bond to – example: Aluminium window frames in the early morning (especially in autumn & winter months). The extra adhesion of the Superior should help bond to these types of colder surfaces.
- Interior & Exterior paint mask applications (not for flaky surface areas)
- Compatible with most sealants & silicones.

Order Codes:

Retail SR +width (SR18 = 18mm width roll)
Bulk SB +width (SB24 = 24mm width roll)

Standard roll widths: 18,24,36,48mm x 55m (other widths sizes can slit as required)
