

JOINING & SEALING TAPE

High Adhesion PVC Tape

PVC Joining and Sealing Tape

Plasticized PVC Tape coated with a specially cured rubber based adhesive. An excellent general purpose tape with good resistance to weather, moisture, UV & aging.

MULTI-PURPOSE:

Thickness: 0.13mm

Excellent for joining & sealing:

- HVAC pipe work & ducting
- Electrical cable insulation & corrosion protection
- Joining plastic sheeting especially for concrete film underlay.

PREMIUM:

Thickness: 0.15mm

Excellent for heavy duty joining & sealing applications:

- New Zealand's number 1 Agricultural silage wrap sealing and patching tape.
- Proven reliability and performance for over 20 years in NZ's demanding weather conditions.
- Excellent for sealing HVAC duct and piping work.
- Heavy duty cable & pipe corrosion protection.
- Used for difficult plastic sheet joining & patching.
